Thanks to our sponsors:
When we began our work in 1994, President Bob Chambers asked how many years I could give to this proposed traditional arts “camp.” I ventured that such an endeavor might last for fifteen years. Little did I imagine that we would create a legacy arts organization that has thrived for a quarter of a century and that now looks to the future with what we are calling “2020 Vision.” We hope you will join us in this journey, making the traditional arts more relevant than ever.

In this catalog you will find a year’s worth of events and activities that will enrich your life. Common Ground on the Hill is a traditional, roots-based music, arts and humanities organization, offering quality learning experiences with master musicians, artists, dancers, writers, filmmakers and educators while exploring cultural diversity in search of common ground among ethnic, gender, age, and racial groups. The Baltimore Sun has compared Common Ground on the Hill to the Chautauqua and Lyceum movements, precursors to this now venerable program.

Our world is one of immense diversity. As we explore and celebrate this diversity, we find that what we have in common with one another far outweighs our differences. Our common ground is our humanity, often best expressed by artistic traditions that have enriched human experience through the ages. We invite you to join us in searching for common ground as we assemble around the understanding that we can improve both ourselves and our world by searching for the common ground in one another, through the lens of our artistic traditions. In a world filled with divisive, negative news, we seek to discover, create and celebrate good news.

_Walt Michael, Founder & Executive Director_

“You owe it to yourself to attend one of the sessions...Common Ground on the Hill is a cornucopia of artistic expression.”

~_The Baltimore Sun_

As a student during the 1960s at Western Maryland College (now McDaniel College), Walt went to Appalachia with the Student Opportunities Service to participate in community action work and traveled to parts of the Deep South to work in voter registration campaigns. While working with America’s poor and disenfranchised, he encountered the beauty and power of traditional music. For over forty-five years, Walt has led a variety of ensembles, performing throughout the United States, Canada and Europe. He returned to his alma mater in 1994 to found Common Ground on the Hill. As Executive Director, Walt leads Common Ground on the Hill toward its stated goal of seeking racial and cultural harmony through the arts.

Workshops & Events ~ June 23-28, June 30-July 5 and July 7-12, 2019
Common Ground on the Hill offers three separate Traditions Weeks of courses, performances and activities. During both Traditions Weeks there is an extensive youth curriculum, “World Village.” For full residential students, arrival and registration is on Sunday afternoon (June 23, June 30, or July 7) at the McDaniel College campus in Westminster, MD, followed by a 4:30 PM fine arts reception, Sunday supper, a short orientation meeting and informal gatherings. Both residential and commuter students should attend the orientation and are invited to enjoy the activities of the evening. Monday (June 24, July 1, or July 8) is the first day of class. Each evening includes a concert, drama, film or lecture and on select evenings there are dances and jams immediately following the concert. All participants are encouraged to join in the various activities that will happen spontaneously throughout the campus.

**NOTE:** Bolded classes are 2-periods and continue into the NEXT period.
The Search for Common Ground
In this, our flagship class, we draw from our experience as artists and human beings to have a dialog arising from our life together here and in the larger society. In an atmosphere of trust and safety, and inspired by song and story, we will listen to and learn from the voices of our sisters and brothers from communities represented in our circle. We gather at Common Ground on the Hill in our twenty-fifth summer in the midst of a world experiencing continuing financial and ecological crises, wars, growing nuclear threats, racial crises, the continued unveiling of systemic abuse, issues of immigration and the omnipresent threat of terror, both foreign and domestic. Yet, we also find ourselves at a time of potential for great, needed change. We shall discuss and consider what we are doing, as artists and individuals, to bring about the changes and create the communities that we desire. To inspire us and help focus our dialog, we will learn of the work of some of those in our circle. On Monday, in the wake of rampant elimination of arts in the schools, filmmaker Leo Eaton will address about how best the arts on screen can help today’s youth better appreciate and understand the vital role art plays in human existence. On Tuesday, Monday evening’s keynote speaker Sheila Arnold Jones, through story and song, will revisit her presentation about arts communities working to make history relevant. On Wednesday, Eglee Zent will explore Western notions of nature and Amerindian alternatives, with a focus on the Joti, an Amazonian group whom she has studied for the last two decades. On Thursday, Carol Zaru will illuminate the remarkable 150-year history of the Ramallah Friends School which continues to distinguish itself as an “oasis of hope” for the Palestinian people. On Friday, Charlie Collyer and Pam Zappardino of the Zepp Center for Peace and Nonviolence Education will bring us up to speed about their work in our community and beyond. Come to this class seeking knowledge and change, inspiring ourselves and others to walk that path. Period 5 ~ Walt Michael ~ Facilitator

Community Song Choir
Join song leaders John Kirk and Trish Miller in an hour of group singing every evening immediately after the dinner hour and just before the evening concert. The choir will learn plenty of songs in preparing to sing a song or two for the Friday evening concert. Bring your voice and your desire to sing to this inspiring gathering. All voices are welcome! After dinner (6:45–7:45 PM) led by John Kirk and Trish Miller

Keynote Lecture ~ The Arts Community: Making History Relevant to the Future. Sheila Arnold Jones
Through story and song, storyteller Sheila Arnold Jones will emphasize that the more we collaborate within the greater Arts Community, the more we can help our country and future generations value the importance of knowing our history. She will present part of her historical storytelling program, “Locks Opened: Chesapeake Waterways Use in the Underground Railroad,” connecting African American slaves’ quest for freedom to today’s immigrants’ desire for acceptance in a country that might open its doors to freedom seekers. “We know that remembering is an act of defiance and resistance to forces that have tried to get us to forget or remain silent.” - Rev. Deborah Lee Alumni Hall Monday, June 24, 8 PM

Sheila Arnold Jones will be the subject of Tuesday’s Search for Common Ground class, McDaniel Lounge. Tuesday, June 25, 4 PM

Arab/Islamic Culture
An overview, through interactive discussion, of the many aspects of the Arab culture and how it relates to Islamic culture. Social behaviors, religions, customs, and politics will be discussed, with special emphasis on how they relate to the U.S. Participants will examine and better understand the diversity of Arab/islamic culture and focus on some misconceptions and stereotypes relating to Arabs and Muslims. Period 1 ~ Carol Zaru

The Common Ground of Music
Through a guided listening experience and discussion, explore how millennia of folk music have shaped centuries of music that the developed world considers to be the greatest, most profound ever composed. The music presented in the class spans the human experience from the Mesolithic age to the early 20th century. This is a listening class intended to appeal to both non-musicians and musicians. No musical skill required. Period 1 ~ Bill Troxler

Everyday Nonviolence in a Crazy World
It is difficult to work with others when we think they are crazy or no good. It is also difficult to see how personalizing problems actually makes them harder to solve. Nonviolence offers practical skills for dealing with difficult people over a wide range of situations. We will explore these skills using real examples. Period 2 ~ Charles Collyer, Pamela Zappardino

Hidden Voices
Lesbian, gay, bisexual, transgender, and queer folks make important impacts on traditional music, but we rarely hear all the meanings in their stories. Why? In this course, we will uncover some of these previously hidden people and the music they have made especially in blues, Appalachian mountain music, gospel, folk counterculture, and Celtic music. We will also explore themes of defiance, fear, secrets, desire, liberation, and acceptance. Everyone is welcome to join the discussion, regardless of age, gender, or orientation. Period 2 ~ Ryan Koons

Learning Arabic
Arabic is the fifth most spoken language in the world, yet few Americans know it. This daily course will introduce the participants to the language and culture of the Arab world. Develop beginner-level skills in conversational Arabic. Learn basic vocabulary and structures such as greetings, how to introduce yourself, how to ask and answer questions, how to count, and how to conduct a basic dialogue in Arabic. Period 2 ~ Carol Zaru

Medieval Perspectives on Modern Crises
Climate change, exploitative wars, corrupt politicians governing by whim – sound familiar? The division and struggle we are now experiencing has happened before, 700 years ago. What can we learn from those who survived to tell their tales? Join medievalist Niccolo Seligmann in examining the art, music, and writings of people who endured those difficult times. If they could survive the fourteenth century, we can survive the twenty-first. Period 3 ~ Niccolo Seligmann

Migrations Sketches: Music of the Diasporas
Migrations have characterized much of human history and continue to do so. This timely program focuses on immigrants, migrations and associated music including the exodus of Roma people (“Gypsies”) more than a thousand years ago from Northern India to Europe, the socially driven “Great Migration” from the U.S. South to urban centers like Harlem and Chicago’s South Side, the climate induced movement of people in the U.S. during the Dust Bowl years, the economy-driven movement of people from the Caribbean to the U.S., the persecution-driven migration of people from Europe to the U.S., the famine induced movement of people from Ireland, and the commerce-driven “Middle Passage” of enslaved people from Africa. Tim Porter on mandolin and Joe Selly on guitar lead the discussion and demonstrate. Period 4 ~ Tim Porter, Joe Selly

See full course descriptions, Faculty bios, and photos online!
www.CommonGroundOnTheHill.org
Native American History, Art and Culture
See *Traditional and Native Skills*, pg. 15. Period 5 ~ Bobby Little Bear

Social Responsibility in Science
Science and society intersect in many complex ways and across a multitude of issues. What role do scientists have in ensuring the socially responsible use of technology and scientific knowledge? What role does the general public have? This course will use case studies, current events, and discussion to explore the issues, and then together we will identify small steps, for scientists and non-scientists alike, that can enable scientific advancements to benefit the broader needs of society. Teachers are strongly encouraged to join this discussion, but teenagers and adults of all backgrounds are welcome. We will explore all new topics and strategies, so if you have taken the course before, please feel free to take the class again! Period 4 ~ Melanie Nilsson

Stories of the Civil Rights Movement
Rosa Parks refused to give up her seat. Martin Luther King, Jr. had a dream. Many know these basic facts about the American Civil Rights Movement. Few people know the personal stories of the people who made it happen and the places where they stood strong. Pam and Charlie from our Zepp Center will share the stories collected over 20 years of travel across the south studying the movement and meeting the people who lived it. Stories of Amelia Boynton Robinson, John Lewis, Viola Liuzzo, Bernard Lafayette, Dorothy Cotton, J.L. Chestnut, and more will bring the movement alive for you, and give you new insight into the foot soldiers - and leaders - of the movement, and why these stories are relevant today. Period 4 ~ Charles Collyer, Pamela Zappardino

Unfurling Western Notions of Nature and Amerindian Alternatives: A Reading of How Diversity Sustains Life
Explore Western notions of nature and Amerindian alternatives with a focus on Amazonian views, philosophy and praxis. Learn about the concept of ecogony: a word coined by the instructor meaning “to describe, comprehend, and explain the causes and articulations (ideological, material, spiritual) of interrelationships, functions and dynamics of people with other entities and their environs.” For instance, the accumulation of goods, services, and information is an ecogenic node of mainstream current world culture. The ecogony of a people explains their environmental ethics. Finally, we will examine the ecogony of the Jott, an Amazonian group who the instructor has studied for the last two decades. Period 3 ~ Eglee Zent

Women and the Blues
See *Songs/Singing*, pg. 11. Period 2 ~ Eleanor Ellis, Henry Reiff

LITERARY & PERFORMANCE ARTS, FILM

The Arts and Television
As public schools across the U.S. increasingly minimize or remove art programs altogether from the general curriculum, the broadcast and streaming of great music, poetry, and other fine arts programs often become one of the only available ways for concerned parents (and teachers) to expose children to great art. Emmy® Award-winning documentary filmmaker Leo Eaton will use examples from his own documentary and music films over the past 20 years to encourage a wide-ranging dialogue about how best the “Arts on Screen” can help today’s youth both appreciate and understand the vital role art plays in human existence. Period 3 ~ Leo Eaton

The Great Story Swap
The vast talent and wide range of experiences of Common Ground on the Hill’s faculty and participants makes this story swap a gold mine that will enrich our lives, broaden our understanding, and deepen our appreciation of the Common Ground community and experience. This is not a "slam" or competition, just a sharing of knowledge and experience through stories. Join us and tell a story, or just listen. Period 5 ~ Sheila Arnold Jones

Historical Storytelling
Learn how to collect family stories and enhance research on historical events and people in order to present as stories ready for the stage, the classroom, and family events. Please bring computer with you. If you want assistance with telling family stories, please bring current information. No previous experience needed. Period 1 ~ Sheila Arnold Jones

Nature Writing: Envisioning Our Place in the World
We will spend the week discussing excerpts and ideas, not only from Thoreau, but from a variety of later writers who, like Thoreau, have struggled to understand their place in the natural world. The genre of nature writing, as it is often called, includes the likes of Edward Abbey, Rachel Carson, Annie Dillard, Barbara Kingsolver, and even Bill Bryson. We will read short bits from authors such as these, spend some time outside doing our own careful observations of the natural world near at hand, and write brief creative reflections. Period 2 ~ Bill Spence

Storytelling in the Personal
We all have stories, but sometimes finding those stories and then learning how to share them beyond the kitchen table can be a challenge. We each have a unique inner dance - lose the fear of using it in order to express its lyricism. **NOTE:** Bolded classes are 2-periods and continue into the NEXT period.
The Search for Common Ground

In this, our flagship class, we draw from our experience as artists and human beings to have a dialouge arising from our life together here and in the larger society. In an atmosphere of trust and safety, and inspired by song and story, we will listen to and learn from the voices of our sisters and brothers from communities represented in our circle. \textit{We gather at Common Ground on the Hill in our twenty-fifth summer} in the midst of a world experiencing continuing financial and ecological crises, wars, growing nuclear threats, racial crises, the continued unveiling of systemic abuse, issues of immigration and the omnipresent threat of terror, both foreign and domestic. Yet, we also find ourselves at a time of potential for great, needed change. We shall discuss and consider what we are doing, as artists and individuals, to bring about the changes and create the communities that we desire. To inspire us and help focus our dialogue, we will learn of the work of some of those in our circle. On Monday, the Veterans Initiative with \textbf{Josh Hisle}, \textbf{Dan Collins} and author \textbf{Madeleine Mysko} will present their work in the arts as it relates to healing the wounds of war. On Tuesday, keynote speakers \textbf{Paul} and \textbf{JoAnn Dolan} will discuss strategies for social change, focusing on attendee projects and interests in environmental, social justice, Native American sovereignty, and human rights. On Wednesday, join \textbf{Vladimir Merta}, an often-banned protest singer, in exploring his life’s work as Europe’s most celebrated Czech acoustic guitarist and singer-songwriter. On Thursday, join with Northern Ireland’s peacemaking singer-songwriter \textbf{Tommy Sands} in learning how music and song was intertwined with the peace process that brought Northern Ireland out of darkness and into the light. On Friday, learn of some of the latest remarkable findings in the emerging field of music and healing from musicians \textbf{Jesse Palidofsky} and \textbf{Karen Ashbrook}. Come to this class seeking knowledge and change, inspiring ourselves and others to walk that path. \textbf{Period 5} \textendash \textbf{Walt Michael, Facilitator}

The History and Impact of Cultural Appropriation

In the 21st century, cultural appropriation, like globalization, isn’t just inevitable; it is potentially positive. We must stop guarding our cultures and subcultures in efforts to preserve them. It’s naive, paternalistic and counterproductive. Furthermore, it’s not how culture or creativity work. The exchange of ideas, styles and traditions is one of the tenets and joys of modern multicultural society. \textbf{Period 4} \textendash \textbf{Larry Brumfield}

Bring your instruments and voices to this participatory class. Tommy Sands, Northern Ireland’s singer, songwriter and social activist has achieved something akin to legendary status in his lifetime. From the pioneering days with the highly influential Sands Family, bringing Irish music from New York’s Carnegie Hall to Moscow’s Olympic Stadium, he has developed into one of the most powerful songwriters and championing solo performers in Ireland today. His songwriting, which draws the admiration of Nobel Poet Laureate Seamus Heaney and father of folk music Pete Seeger, prompts Sing Out to regard him as “the most powerful songwriter in Ireland, if not the rest of the world.” His songs, like “There were Roses,” and “Daughters and Sons,” have been recorded by Joan Baez, Kathy Matthea, Dolores Keane, Sean Keane, Frank Patterson, The Dubliners and many others, and have been translated worldwide. Bodhran for Beginners – No Drum Needed!
The bodhran is the Irish version of a frame drum. It is a simple, circular rim to which a hide is attached. The drum may be played with the bare hand or with a stick called a tipper. Topics to be covered in the class include how to hold the drum and tipper, how to strike the drum, reel and jig rhythms, how to make a cheap drum sound great, and what to look for when buying a drum. Students who don’t own a bodhran but are interested in learning the instrument are encouraged to join the class. Everyone may explore the instrument by bringing an unused, medium-size pizza box to stand in for a drum. The instructor will provide tips and some pizza boxes. The bodhran has rightly been called “The heartbeat of Irish music.” Tasteful, competent skill with a bodhran can bring a session or a concert alive. The instrument is great fun. **NOTE:** Bolded classes are 2-periods and continue into the NEXT period
The Search for Common Ground
In this, our flagship class, we draw from our experience as artists and human beings to have a dialog arising from our life together here and in the larger society. In an atmosphere of trust and safety, and inspired by song and story, we will listen to and learn from the voices of our sisters and brothers from communities represented in our circle. We gather at Common Ground on the Hill in our twenty-fifth summer in the midst of a world experiencing continuing financial and ecological crises, wars, growing nuclear threats, racial crises, the continued unveling of systemic abuse, issues of immigration and the omnipresent threat of terror, both foreign and domestic. Yet, we also find ourselves at a time of potential for great, needed change. We shall discuss and consider what we are doing, as artists and individuals, to bring about the changes and create the communities that we desire. To inspire us and help focus our dialog, we will learn of the work of some of those in our circle. On Monday, Rev. Randy Mayer and Green Valley Samaritan Shura Wallin will bring us up to speed on the latest realities of immigration in the Sonoran Desert. On Tuesday, Dr. David Carrasco will lead a discussion about his keynote address on the documentary “A Song for Cesar Chavez: The Music and the Movement.”

Learning to Do Be reali...Classroom.” On Wednesday, attorney Moira Meltzer-Cohen will visit her classroom topic “Learning to Do Better: Teaching and Modeling Antiracism in the Classroom.” Dr. Steve Nida, on Thursday, brings to light the damaging effects of exclusion and social ostracism, offering what we can do as individuals to make a difference. On Friday, as we close our three weeks of the Search for Common Ground, we are visited by Native American instructors Sakim, Pun Plamondon and Robin Tillery, asking their guidance as to how we might seek, find and walk an enlightened path in our next 25 years at Common Ground on the Hill. Come to this class seeking knowledge and change, inspiring ourselves and others to walk that path. Period 5 ~ Walt Michael, Facilitator

Instant Angelic Choir
What’s better than singing together? Welcome to our all-levels ensemble where even the chronically timid are encouraged to embrace the natural singing ability we ALL possess. This is singing from the ground up, especially for (but not limited to) those who may have been discouraged over the years by family, friends, self-doubt, music teachers who told you to move your lips and not make any sound, the list goes on. Take a deep breath and enter the “laboratory of no wrong notes”. A sense of humor is helpful (we’ll have fun), and we’ll work on something for the big class concert at the end of the week. Jump in, the water’s fine! After dinner (6:45~7:45 PM) led by David Roth

Keynote Lecture ~ A Song for Cesar Chavez: The Music and the Movement. David Carrasco
This illustrated talk will focus on the interplay between Cesar Chavez’s epic struggle for farmworker rights and folk music and art. Carrasco will show and comment on film clips from the soon to be released film Song for Cesar: The Music and the Movement which features Maya Angelou, Taj Mahal, Carlos Santana, Graham Nash and many others. David Carrasco is a Chicano historian of religions working on the topics of religious experience, sacred cities/borderlands and the Latino diaspora. His most recent book is The Aztecs: A Very Short Introduction and he teaches in the Harvard Divinity School and the Department of Anthropology. In 2004 he was awarded the Mexican Order of the Aztec Eagle, the highest honor Mexico gives to a foreign national. In 2011 he was elected into the Academia Mexicana de la Historia for his outstanding contributions to understanding the history of religions in Mexico. He was recently chosen as one of the favorite professors of the Harvard class of 2014 and he was a talking head in the recent PBS series ”Native America.” Highly recommended to the entire Common Ground on the Hill community, this lecture is open to the public. Alumni Hall Monday, July 8, 8 PM

Dr. Carrasco’s lecture will be the subject of Tuesday’s Search for Common Ground class, McDaniel Lounge. Tuesday, July 9, 4 PM

Be a Man!
What does it mean to “be a man”? What are we asking men to do and be? In what ways are these expectations positive? problematic? As issues about men, sexual assault, and gun violence become increasingly visible and polarized, the debate is often reduced to individual behavior, character, and consequences. But the pattern of behavior suggests that this is less about bad men making bad decisions, and more about the social expectations of manhood and masculinity affecting us all. By watching films and having open and honest dialogue, we’ll grapple with what it means to be a man, the positive and/or negative effects of these expectations, and what manhood and masculinity could and should look like moving forward.

Bluegrass Masterclass
See General Knowledge, pg. 32. Period 3 ~ Tim O’Brien & Jan Fabricius, Che Apalache, Bob Lucas, Mark Schatz, Chris Luquette

Learning to Do Better: Teaching and Modeling Antiracism in the Classroom
How we present ourselves in the classroom is at least as important for what our students learn as the substance of our lesson plans. If one of our goals is to nurture antiracist students, then let us as teachers get over our fear of being called racist, and just commit actively to listening and doing better. In this class we will think about not just what to teach about race; but how to model antiracist behavior, publicly mess up, and taking responsibility, and what it means to commit to the perpetual growth of ourselves and others in an environment that encourages and nurtures us to do better, rather than punishing or humiliating us when we are not perfect. Period 4 ~ Moira Meltzer-Cohen

Look and Listen: The Beauty of the Blues
See Songs, Singing, pg. 36. Period 5 ~ Cary Wolfson

Moving Toward Racial Harmony
It feels like so many people have moved away from racial harmony. Recent studies and polls have shown that we have become more racially divided about various issues within the last several years. In this class, we will discuss how we can be in the vanguard of moving toward racial harmony. Participants will learn the roadblocks to racial harmony, how to overcome these roadblocks, and practical applications to move toward racial harmony from the classroom to our personal spheres of influence. Period 3 ~ Richard Smith

The New Jim Crow
Is there a connection between race and crime? Is immigration related to more crime? Why is there a higher rate of incarcerated Blacks and Latinos than Whites? Where do statistics related to race and crime come from and what do they mean? These questions and topics such as the history of immigration in the U.S., history of slavery, and the history of how the criminal justice system reinforces racial inequality will be interactively discussed during this class. Hopefully by the end of the class, participants will gain an informed perspective relating to the statistics, historical contexts, misconceptions, and stereotypes on race, crime, and criminal justice (CJ) related issues. Period 4 ~ Brandie Pugh

Peace Education in the Classroom and with Adult Offenders
Explore the experience of peace education with children who have come from fragmented and dysfunctional backgrounds and consider how we can help them overcome the negative experiences using songs, film, poetry, and other vehicles. We will also explore the experiences of adult offenders, discovering how we can harness anger as a force for good. In the time available we will just dip our toes in the water, but you will be inspired to take your learning back into your own communities. Period 2 ~ Paul Creighton
Samaritans at the Border, Immigrants Among Us
This class is also offered during Week 2. See pg. 19. Period 1 ~ Randy Mayer, Shura Wallin

Social Change, Cultural Resistance and the Religious Imagination
Enjoy a week-long class with Octavio Carrasco, which will visit three distinct topics. The class will visit the Mayas of Guatemala and learn how they adapted, interpreted, and absorbed Christianity to protect and prolong their way of life. Secondly, the class will investigate the religious dimensions of popular music. While emerging forms of music are almost always shunned or labeled as dangerous, we are entering a time when popular music is one of the centers of cultural identity and performance. Finally, Octavio asks us to consider the complex relationship of the cultural encounter of Europeans, Africans and Aborigines that defines U.S. history. It is becoming imperative to consider the ways the entire country is a borderlands. This moves beyond our modern conceptions of states and connects us back to the process of settlement, displacement, and development that is going on even now. All three topics will encourage discussion and reflection. Period 1 ~ Octavio Carrasco

Social Exclusion, Social Pain
Bullying, particularly among children and adolescents, has received a great deal of attention recently from educators, parents, and even lawmakers - and anti-bullying efforts seem to be everywhere. A large body of recent psychological research suggests, however, that ostracism and social exclusion may actually be even more damaging than bullying. Regardless of which is worse, it is clear that both types of social behavior are harmful. Gain an understanding of how the kindness of a single individual can often be the key to negating the impact of exclusionary behavior, reinforcing the theme that - even when standing alone - every single one of us has the power to make a difference. Period 2 ~ Steve Nida

Stories, Customs and Traditions of the Woodland First Nations
See Traditional & Native Skills, pg. 40. Period 5 ~ Pun Plamondon

Traditions and Transformation: The Genres Speak
Explore tradition from a holistic standpoint. Within many music camps, schools, and colleges, traditions are often presented in welcoming environments of learning. Yet, many of these traditions often include stories and documentary evidence illustrating how those traditions are intertwined with America’s history of slavery, racism, appropriation, and exploitation. Traditions and Transformation holds that practitioners of any American form of music, dance, or art can use the history of that tradition as a tool for conflict transformation and dialogue. The instructors will work with attendees to take what they do as educators and place it into a larger applied framework of history, community, and critical engagement. By using archives, history, and personal experience, each person will realize the flexibility of their art form and pedagogy. Period 4 ~ Greg C. Adams, Junious Brickhouse, Dena Jennings

Tuvan Culture
The Tuvan Republic lies at the geographical center of Asia in southern Siberia, Russia, just north of Mongolia. Learn about life in Tuva and how music, spirituality, history, and the natural environment have inspired and shaped the Tuvan people. You will also learn about everyday life in Tuva, both in the countryside and in their capital, Kyzyl. There will be emphasis on how Tuva is a musical culture, with demonstrations of Tuvan musical instruments and the opportunity for members of the audience to try the instruments themselves. Period 3 ~ Robert McLaughlin

Finding Common Ground Through Film
What does a street vendor from Baltimore have in common with a Mennonite from rural Pennsylvania? How does an American beat-boxer relate with Tuvan throat-singers? Join independent filmmaker Michael R. Faulkner and professor of social work, Jim Kunz, for an exploration of these relationships and others. Through screenings and discussion of the instructor’s documentaries, we will look at how people from diverse backgrounds find common ground and examine how the arts can be a tool for bridging socio-cultural divides. Participants will be encouraged to find ways to cultivate cross-cultural exchange in their own lives. Period 1 ~ Michael Faulkner, Jim Kunz

How to Produce Professional Video Interviews
Students will do actual interviews with Common Ground Artists and Musicians as they learn how to produce professional quality video interviews. Open to anyone with an interest in documentary film making and/or recording interviews with interesting people. Students may bring their own camera or laptop computer for guidance if desired. See website for reference videos. Limit 6 students, ages 16 and up (ages 13-15 with adult). richard@rnaphoto.com Periods 3 & 4 ~ Richard Anderson

Sharing (Writing) Our Stories
We all have stories to tell. In this workshop, appropriate for both novice and experienced writers, we’ll tell ours in memoirs we compose and then share. After looking at different kinds of memoirs, we will combine in-class writing exercises with instruction on subjects such as creating dynamic scenes and structuring your story. You will begin transforming your experiences into stories that will touch others. Bring to the workshop whatever writing materials you’ll need. bmorrison@bmorrison.com. www.bmorrison.com Period 1 ~ Barbara Morrison

Stories, Customs and Traditions of the Woodland First Nations
See Traditional and Native Skills, pg. 40. Period 5 ~ Pun Plamondon

Storytelling - The First Art
In the beginning was the word...then came stories. Humans tell stories, it’s in our DNA. Join us for a freelwheeling class of storytelling, sharing, analysis, debate, and experimentation in a safe and supportive atmosphere. This class has no homework, handouts or power points. Pun Plamondon is a Master Ottawa storyteller and tradition bearer from the Upper Great Lakes. Period 2 ~ Pun Plamondon

Theater Toolkit with Mad River Theater Works
Mad River Theater Works is a theater company based in rural Ohio that makes plays that bring history to life through an original assemblage of music, storytelling and drama. In this course, Mad River artists will lead participants on a journey through a theater-artist’s toolkit. Participants will engage the art of theater, exploring the many facets of theater involved in creating work, developing a piece to be performed at the end of the week. Actors, musicians, storytellers, dramaturgs, artists, set designers, and stage managers are all invited to participate. Limit 15 students. NOTE: This is a 2-period class. Periods 3 & 4 ~ Bob Lucas, Destin Le’Marr, Chris Westhoff

**Ukulele Orchestra**

We have been thoroughly inspired by The Ukulele Orchestra of Great Britain and we are jealous of the amount of fun they are having. Take a look at their hilarious version of “Shaft” on YouTube and ask yourself if you don’t want to be in a ukulele orchestra. Whatever your ukulele skill level there is a place for you in this organization. Guitarists please note that you already know how to play the uke, it will take you ten minutes to become proficient and we will let you solo and show off all your twiddly bits - you will however have to purchase a uke to qualify. There will be no standing on ceremony, this class is all about the joy of making music and not worrying how polished it sounds. The best part is we will inflect our musical stylings on the unsuspecting masses as we stage impromptu “pop up” recitals around campus. If you don’t sign up for this class it will be the one that you will have wished you had taken. We are going to have so much fun! **Level A/B Period 1 ~ Gordon Roberts**

Common Ground on the Hill for Young People
We encourage families to attend Traditions Weeks! No one under the age of 18 may attend Traditions Weeks without a parent or legal guardian. The accompanying parent or legal guardian must also be an enrolled student. There are a number of options for young people who enroll in Traditions Weeks:

**World Village:** Our youth program, World Village, is available to **children who have completed kindergarten** and **children up to the age of 12**. World Village runs in periods 1-4. There are a number of elective classes held during Period 5 that children may attend with a parent/guardian, included in tuition. **NOTE: Students must have completed kindergarten to be enrolled in World Village.**

**Courses for Tweens:** Young people between the ages of 11 and 15 are encouraged to enroll in workshops with their parents. If a student between the ages of 11 and 15 intends to take a workshop **without** a parent present, that young person’s parent(s) MUST contact the Common Ground on the Hill office to obtain permission. See General Information page on website for a list of suggested classes.

**Students 16 years of age and older** may enroll in the workshops of their choice without any additional required steps.

**A Word about Your Skill Level** Common Ground on the Hill welcomes participants at all skill levels, from beginners to advanced.

Please refer to **What’s the Right Workshop Skill Level for Me?** (below) to help you understand our guidelines for placing students interested in studying a musical instrument in the workshops that will be of the most benefit to them as individuals and also benefit whole classes and the camp. It is also important to note that instructors will observe individual students’ skills and the general skill level of a class and adjust his or her presentation accordingly in order to arrive at the most productive and enjoyable instructional experience possible.

**What's the Right Workshop Skill Level for Me?**
Please note that the guidelines below apply to instrumental (and in some cases dance) workshops ONLY

**To help you understand the nomenclature of our workshop titles:**
If a workshop title includes the word "Beginning," it will correlate to Skill Level A. Workshops titles that include a Roman numeral I correlate to Skill Level B. Workshop titles that feature a Roman Numeral II, or include an instructor’s name (ie. Old-Time Guitar with Danny Knicely) correlate to Skill Level C. Some workshops will have none of these indicators in title, but the workshop description may still include a Skill Level suggestion. Workshop descriptions that do not indicate a Skill Level are open to students of all Skill Levels.

Shelley Ensor
Recipient of the 2019 Robert H. Chambers Award for Excellence in the Traditional Arts to be presented Saturday, July 13, 2019, at the Common Ground on the Hill Festival

Shelley Ensor led the Common Ground Gospel Choir for twenty-two years and is revered at Common Ground on the Hill as one of its most inspired and treasured instructors. She comes from a highly gifted musical family and possesses a rare, beautiful and powerful voice, resulting in excellence in both sacred and secular music. Her mother and accompanist, pianist Alice Dorsey, raised her daughters with great musical inspiration, purpose and direction. Since childhood, Shelley has sung with her siblings in The Sisters in Harmony, releasing their CD, Your Love, in 2001.

Shelley’s credits are many. She was the vocalist with the Howard Burns Quintet, appearing on their CD, Lucinda’s Serenade, and performing at the legendary jazz venue, Blues Alley. She is featured on the Ron Kearns CD, Live at Blues Alley, and was the soloist with the Frederick Community College Jazz Band for a number of years. Shelley currently directs the Voices of Faith and the Men’s Choir of First Baptist Church of Baltimore, directed the Trinity Baptist Gospel Choir, the Men’s Choir of St. Luke’s UMC, the Bertinna Randall Gospel Choir of St. Mark UMC and the Westminster Church of the Brethren choir in Westminster. For the past six years Shelley has served as the Director of the McDaniel College Gospel Choir, the ensemble that includes both college students and members of the greater community, producing two annual concerts.

A songwriter once wrote “...as I look back over my life I can truly say that I’ve been blessed, I’ve got a testimony.” Music has allowed me to express the happiest times in my life. It has given me comfort in the most trying times and it has calmed in chaotic times. Being able to share the gift of music either by performing or teaching has been a blessing to me. My hope is that something I have done has touched someone to the point that they have the desire to pass the gift of music on to someone else. ~ Shelley Ensor

In awarding Shelley the Robert H. Chambers Award for Excellence in the Traditional Arts, we celebrate her critical presence in our work throughout our twenty-five year history. She brought the house down at our very first concert in January, 1995, and remains a powerful force for peace and harmony in our community. Shelley’s musical excellence combined with her generous spirit has sustained and inspired each of us to do our best, to be our best.
Grammy Award winner Tim O'Brien is a national treasure of American traditional music. Tim has toured extensively in the U.S. and internationally, has been featured on the Grand Ole Opry, Prairie Home Companion, and is a favorite at major bluegrass and folk festivals throughout the U.S. As co-founder and lead vocalist of the band Hot Rize, he served as an important bridge between the traditional sounds of the hill country and the modern styles of bluegrass in the 1980s. Hot Rize remained together for 12 years, receiving critical acclaim and numerous awards.

O'Brien has continued to expand the music's borders as a solo multi-instrumentalist artist, releasing 13 solo albums, including an album of Bob Dylan covers, “Red on Blonde,” and the Grammy-winning “Fiddler's Green.” In short, Tim O'Brien was “Americana” music long before the term was coined. Tim is at once a consummate bluegrass, old time, folk, Celtic, gospel and singer-songwriter musician. His songs are moving, intimate windows into people’s life experiences, realities and desires. His music is at once traditional, history-laden. new and relevant. with heart always at the center.

Tim has graced the stages at Common Ground on the Hill for three summer seasons throughout its 25-year history. We are grateful for his presence in and generous contribution to our work, as we strive to serve and inspire our community through the traditional arts. We are most happy and honored to include this West Virginia native and world citizen among the other wonderful artists who have received the Robert H. Chambers Award for Excellence in the Traditional Arts.

Common Ground on the Hill has presented the Robert H. Chambers Award for Excellence in the Traditional Arts every year since 2000. The award is named in honor of Robert H. Chambers III, who, as President of Western Maryland College (now McDaniel College) and as a Founding Director of Common Ground on the Hill, understood the innate power and potential of the traditional arts to help foster understanding among people of different cultures. His unwavering support was essential in the early development of Common Ground on the Hill and is remembered gratefully in the naming of this annual award. The award is presented at the Roots Music & Arts Festival held in July. Recipients have been Doc Watson, Pete & Toshi Seeger, Odetta, Etta Baker, Roger McGuinn, Ramblin' Jack Elliott, Joe Hickerson, Richie Havens, Jean Ritchie, Guy and Candi Carawan, Tom Paxton, Ralph Stanley, Hazel Dickens, Mike Seeger, Buckwheat Zydeco, Jesse McReynolds, John Hammond, Mike Baytop & The Archie Edwards Blues Foundation, Hot Tuna, Professor Louie, Jose Feliciano, Guy Davis, and the Kruger Brothers.
A trained "Maker of Medicine," Apalachicola-Creek C. Randall Daniels-Sakim is hereditary tribal town mekko or "king" of the American Indian community Tvlyv Pvlvcekolv, or Pine Arbor Tribal Town. He is a renaissance man in the truest sense of the term. As conveyor of history, story, and ceremony, Sakim has guided his community for several decades. His duties include directing community education initiatives, directing ritual activities, collaborating with local doctors and hospitals as a traditional herbalist, and caring for the elderly and dying. A talented linguist and polyglot, Sakim is one of the last native speakers of the southeastern dialect of Muskogee; Oklahoma-based Muskogee language educators regularly consult with him regarding southeastern variations. He also speaks many other languages, initiating conversations with native speakers of Arabic, Norwegian, Mandarin, and many others—often to the consternation of his companions!

He is lead author of the Muskogee Words and Ways series, publications still integral to Creek language and culture curricula today, and is collaborating on a forthcoming book on southeastern Indigenous star lore and cosmology. Sakim has appeared in several publications as a subject, including the influential archaeological monograph Maya Cosmos, and dissertations written by doctoral candidates at UCLA and the University of Virginia. He holds a degree in archaeology and the first MA in ethnomusicology granted by Florida State University.

Sakim has played and taught southeastern flute since the 1940s, and played, built, and repaired church organs for decades. Prior to taking over Pvlvcekolv leadership following his father's death, Sakim taught as interim director of the American Indian Studies program at the recently-renamed California State University, East Bay, in the San Francisco Bay Area. He has also taught science in the Leon County, Florida, public school system; visual arts at Western Maryland—now McDaniel—College; and Indigenous culture, flute, and visual arts at Common Ground on the Hill. Common Ground on the Hill Visual Arts Coordinator Linda Van Hart sums up his career well, noting that teaching is his primary art form: "It is uncommon to encounter a true renaissance man who is as accomplished in science, music, and the visual arts as Sakim. He has taught them all: he is our own Leonardo!"
